### Keel Battered During Raid By British Planes

Power Station At Port Of Hamburg Also Heavily Bombed During Widespread Raids Over Germany

LONDON, Oct. 26.—(CP)—Bomb hits were made on the power station at the big German naval base of Kiel and fires were started in shipbuilding yards there when the Royal Air Force made numerous raids on Germany last night, the air ministry announced today.

The Neuhoof power station at the port of Hamburg also was "heavily bombed" and many fires were started among the docks at Bremen and Cuxhaven.

D.P.I. With each month of war the humming wheels of the Canadian aircraft industry reach a higher tempo in their song of promised victory. In this photograph a workman is shown as he attaches a wingtip light to a Lyander air co-operation airplane. A considerable number of these machines are being made in Canada for both British and Canadian use.

### London's Eighth Air Raid Alarm Sounds At Night

Germans Strike Almost Continuously At Southeast England and London In Daylight Attacks

LONDON, Oct. 26.—(CP)—London's eighth air raid alarm of the day—quelling the record of the war—was sounded just after midnight after a day in which German planes struck almost continuously at southeast England and the capital.

Four German planes were shot down at a loss of two.

Several planes were believed to have been hurled beneath the debris of a tremendous bomb hit by a high explosive bomb just after noon.

One hundred and twenty planes crawled out of one damaged air raid shelter through an emergency exit. They were unharmed.

Reports from the southeast said a German plane machine-gunned a coastal town and dropped several bombs.

Visibility AT BEST

Visibility across the Strait of Dover was described as the best since the war began, with every detail of the opposite shore clearly visible. The sea was choppy, with a cold, northwest wind blowing.

The series of rapid fire day attacks followed a fierce night raid in which British defenses were said by unofficial sources to have functioned with a new-found efficiency.

The defenders were credited with shooting down eight Nazi night bombers, and the Evening Standard said anti-aircraft fire and fighter squadrons had given the Germans the "most devastating reverse" yet suffered in their night attacks.

With the hours of darkness lengthening, the air ministry said today that German planes had sunk the liner Empress of Britain north of Ireland this morning. The ship was reported sinking after the crew had abandoned her.

(The admiralty in London declined comment. Authoritative sources of information said they had heard of the reported sinking only through a British broadcast.)

The Empress of Britain, completed in 1931, displaced 23,240 tons. She is rated one of the world's 10 largest vessels.

The Empress was reported at Sydney, Australia, on April 26, with the liner Mauretania, the Queen Mary, the Aquitania and the Empress of Canada and Asia. All were believed engaged in conveying Australian and New Zealand troops.

In peace the Empress of Britain operated between Quebec and Southampton in the summer and on world cruises in the winter. She carried the King and Queen here to England in 1939 after their visit to Canada and the United States.

London, Oct. 26.—(CP)—British quarters today were without confirmation of German claims that German planes had sunk the liner Empress of Britain north of Ireland.

It was recalled that it was not the policy of the admiralty to comment on German claims which were said often were put out as "rumors" in an attempt to obtain direct information.

Madeline Carroll Arrives In Ottawa

OTTAWA, Oct. 26.—(CP)—Madeline Carroll came to Ottawa today to make a personal theatre appearance and was greeted as she entered the railway station by several hundred autograph seekers.

### MESSAGE SENT TO FRANCE BY KING GEORGE

His Majesty Tells Pétain Britain Confident Of Victory

By FREDERICK KUH

LONDON, Oct. 26.—(BUP)—King George sent encouragement and sympathy to France in a message to Premier Marshal Henri Philippe Pétain today. He told him Britain was confident of victory and France would share in the benefits.

Two days after Pétain conferred in a railway car with Adolf Hitler the King followed up the speech last Monday of Prime Minister Winston Churchill, who, addressing the French people, said: "If you can't help us, don't hinder us."

UNHEARNED SUBSIDING

His Majesty's message was said to show that British uneasiness over Hitler's negotiations with French and Spanish leaders was subsiding.

Diplomatic reports from abroad were reported to have encouraged the British to such an extent that a personal message from the King to Pétain was deemed worthwhile. It was noted here, however, that greater assurance was felt with regard to Spain in the past.

Major interest centered on events in Vichy where Pétain was in conference with Hitler. But the British also kept an eye on Madrid.

Two embassies received reports direct from Madrid that Generalissimo Francisco Franco had refused three proposals by Hitler—that Spain actually take part in the war, that it permit Germany and Italy to use Spanish air bases, and that it give Germany facilities for troop transport to Gibraltar.

Most diplomats in London expressed belief that these reports were correct, though a few suspected that they were intended to throw Spain into confusion.

CHEERFUL SPIRITS

However, the more cheerful spirit in London was in great part due to a feeling that Hitler's visit to Franco and Marshal Pétain was a suggestion at first that his visit meant that he was already assured of a new coalition.

There was a feeling also that Hitler's visit was a confession that Germany had lost the battle of Britain.

Suggestions that Hitler talks were intended to distract attention from the Balkans in preparation for a blitzkrieg were scorned.

It was noted here, however, that Hitler had been seen in a rendezvous with Hitler he came followed his usual routine and left his ministers waiting to know where France stood.

Aged Marshal Pétain appeared to be in no hurry to commit France to any new agreement with the axis, for upon his return last night from a rendezvous with Hitler he came followed his usual routine and left his ministers waiting to know where France stood.

Mr. Marchand suggested that to defend France from punishing German cities is "either weakness and impotence."

"Let them have their underground in their streets, their homes, their shops and factories, their schools, hospitals and dwellings, what the new faction of air warfare their rulers are employing against us really means."

Continued on Page 2, Col. 4.

### France's Position Will Be On Basis Of Complete Equality

Means Of Applying Agreement To Be Examined Later Says Announcement From Cabinet Meeting

VICHY, France, Oct. 26.—(AP)—Pétain and Hitler have agreed "on collaboration in principle" for "the reconstructing peace in Europe." It was announced officially here tonight.

Means of applying the agreement will be examined later, said a brief communique issued after a cabinet meeting.

Hitler and Pétain held a "general examination of the situation and, in particular, the means of reconstructing peace in Europe," it was added.

"The two chiefs of state were in accord on the principle of collaboration," it added.

(A French broadcast picked up in New York declared: "France's future position in the new European order has been decided," and added: "France's position will not be on the basis of a conquered nation, but on the basis of a partner with complete equality.")

A later communique said the ministers had unanimously approved the terms of Pétain and Vice-President Pierre Laval made to confer with Hitler and other Axis officials.

Laval returned to Vichy today, presumably from Paris, and with Pétain reported to the rest of the cabinet.

Roosevelt Sends Message To Vichy

WASHINGTON, Oct. 26.—(AP)—Cordell Hull, United States secretary of state, said today that President Roosevelt had sent a "communication" to the Pétain-Laval government at Vichy several days ago in regard to negotiations now underway between France and Germany and their effect on United States interests.

Hull said the communication was dispatched Thursday, the day Hitler and Marshal Pétain met "somewhere in occupied France."

He declined, however, to make public the text of the President's communication or any details of the specific subjects involved.

The secretary, answering newspapermen's questions, said that at the Havana conference the 21 American nations had formulated a policy involving the territories in the western hemisphere owned by European governments whose status might be changed by developments in the war.

Although Hull declined to specify the precise subject of the President's message, it was reported in other quarters that it called attention of the Vichy government to the Havana conference's formulation of policy, presumably with the warning that French territories in the western hemisphere would be taken under American protectorship if their ownership changed status in any manner.

The communication was delivered to Gaston Henry-Haye, ambassador of the Vichy government in Washington, when he called on Sumner Welles, undersecretary of state, late Thursday evening.

Hull said there had been no answer from the Vichy government to the President's message.

Preludes To Axis "Peace Drive"

VICHY, France, Oct. 26.—(AP)—Premier Pétain returned last night from his rendezvous with Hitler, and informed sources here considered the possibility that the present negotiations between Germany, Italy and France may be preludes to an Axis "peace drive."

Overtures for a cessation of hostilities might be launched through President Roosevelt, these sources said, after all the strings are tied together from the current or impending conversations between Pétain, Hitler, Franco of Spain, Vice-Premier Laval of France and Ciano of Italy.

In Berlin, a spokesman said that the best answer to such reports is "either weakness and impotence."

Laborite Attacks Heavy Bombing German Cities

LONDON, Oct. 26.—(CP)—A plea for "heavy, merciless, incessant, destructive" counter strikes against Germany was made today by John Marchbank, general secretary of the National Union of Railwaymen, in a "Railway Review," upon publication.

Mr. Marchbank suggested that to defend France from punishing German cities is "either weakness and impotence."

"Let them have their underground in their streets, their homes, their shops and factories, their schools, hospitals and dwellings, what the new faction of air warfare their rulers are employing against us really means."

### IMPOSSIBLE TO SEE FRANCE AS BRITISH ENEMY

Justice Minister Lapointe Speaks To Frenchmen Of World

OTTAWA, Oct. 26.—(CP)—Justice Minister Lapointe, in a broadcast message to Frenchmen, said today that it was impossible to see France as a British enemy.

"Because we know too well the heart of France to doubt an instant of her loyalty," said Mr. Lapointe.

"Because we know too well the heart of France to doubt an instant of her loyalty," said Mr. Lapointe.

"Because we know too well the heart of France to doubt an instant of her loyalty," said Mr. Lapointe.

"Because we know too well the heart of France to doubt an instant of her loyalty," said Mr. Lapointe.

"Because we know too well the heart of France to doubt an instant of her loyalty," said Mr. Lapointe.

## NAVAL UNITS FROM CANADA STAND READY

Four Destroyers In British Waters Prepared To Meet Enemy

OTTAWA, Oct. 26.—(CP)—If Hitler launches his long-expected attempt to invade the United Kingdom, Canadian destroyers will be in the thick of the sea-fighting as defending warships dash out to intercept the invaders.

Recent dispatches received at Canadian naval headquarters tell something of how the four destroyers of the Royal Canadian Navy on duty in British waters hold themselves ready for the day when they may be called upon to pursue and destroy Nazi troops and barges.

THEY MINUTE'S NOTICE

Keep steam at 150 minutes from 2000 today Wednesday to 0700 tomorrow Thursday. Leave may be given until 1000 today Wednesday.

Translating into landlubbers' language that means: The boys can go ashore until 7:30 tonight (Wednesday). From eight o'clock tonight till seven o'clock tomorrow morning they're to sail on 10 minutes' notice.

But the destroyers from Canada, manned by Canadian officers and crews, are not merely sitting around waiting for an attempt at invasion. In between calls in port they escort convoys through the North Atlantic, and they are also engaged in submarine and air warfare.

GUARD CONVOYS

Recently the destroyer Restigouche returned to Canada after having been in escort of a convoy of merchant ships in European waters, without a loss. This means that, thanks to the Canadian ship, in company with ships of the Royal Navy, dozens of cargoes of vital goods reached British ports and hundreds of persons reached shore without harm.

Only this week Alan B. Plant of Ottawa, Oct. 26.—(CP)—Gen. V. W. Odlum, officer commanding the 3rd Canadian Division, and N. L. Nathanson of Toronto, have been appointed to the Board of Governors of the Canadian Broadcasting Corporation for three years, starting from Nov. 2.

Notice of their appointment was contained in today's issue of the Canada Gazette.

Only this week Alan B. Plant of Ottawa, made known his resignation from the Board of Governors of the CBC, and it was accepted by Minister Minister Howe who has jurisdiction over the CBC.

## BRITISH SHIPS SHELL ITALIAN AFRICAN BASES

Positions East Of Sidi Barrani Bombed By Royal Navy

ROME, Oct. 26.—(AP)—The Italian high command admitted today that British warships shelled Italian positions in the Matruh region east of Sidi Barrani on the Egyptian coast from the night of Oct. 25.

Widepread British bombing raids on various Italian bases in Africa were also admitted.

Italian planes were said to have been shot down in Egypt, and in East Africa.

ROME, Oct. 26.—(AP)—The newspaper Piccolo reported today that British warships shelled Italian positions in the Matruh region east of Sidi Barrani on the Egyptian coast from the night of Oct. 25.

Thousands of Italian laborers have built a desert road linking the Italian advance position with the Libyan base. Telegraph and telephone lines have been laid.

Some static sparks can ignite static electricity is a possible cause of many explosions.

On the model on left, temples are too low. Top of lenses too angular—bridge too low on nose. Mounting is too small, causing temples to cut into face, thereby losing much of the attractiveness.

Right

High temples bring lenses up to correct position. Lenses follow sweep of brows. The medium bridge rests squarely between the eyes, and the larger mounting keeps the temples from pressing or gnawing the face.

## Progressives Select Seven Candidates For Aldermanic Election

Progressive groups in Edmonton Friday named seven candidates to contest aldermanic vacancies in the November 13 municipal elections and will meet again Monday evening to decide whether they will enter a candidate in the majority contest and to select candidates for the Public School board.

The seven aldermanic candidates are: Ed. C. Fisher; Ex-Ald. Guy Patterson, R.C.; Ex-Ald. Walter Cleveley, city contractor; Ex-Ald. Elmsa East; Dr. C. B. Willis, Edmonton school teacher; A. A. Deacon, secretary, Engineers' Association of Alberta; and Rice Sheppard.

This brings the total of aldermanic candidates in the field to 14. The two groups of aldermanic candidates are: the progressive group, nominating a full aldermanic slate, it is possible that the Canadian Labor Party will increase its aldermanic candidates slate. Action on this will be taken at the meeting to be held at the Labor hall next Tuesday evening.

Four prospective aldermanic candidates were named by the C.L.P. this week.

W. H. Miller, president of the C.L.P., stated Saturday that the progressive group's action in nominating a full slate clearly indicates no intention of co-operation with the C.L.P., and it is almost certain to result in the nomination of full slates by the Labor Party.

Already nominated for the aldermanic board by the Citizens' Committee are: Aldermen Ogilvie, Sid Paterson, and Ex-Mayor Joseph A. Clarke, K.C., who is resigning from the Public School Board this year.

Others in the field

Early in the fall Peter Glasman announced he would be an aldermanic candidate running as an independent, and Ex-Mayor Joseph A. Clarke, K.C., has indicated also that he will be a candidate but whether for the majority or aldermanic board he would not disclose.

There are only two candidates in the field at present for the majority. Mayor John W. Fry has been nominated again by the Citizens' Committee and will be his fourth term. Ald. D. A. Groot, elected last year for a two-year term on the Citizens' Committee slate, is resigning from the city council to contest the majority. Announcement of his intention to be a majority candidate was made about a month ago.

TWO AIR FORCE  
MEN PERISH IN  
ONTARIO CRASH

LARSEN, Lark, Ont. Oct. 26.—(CP)—Two members of the Royal Canadian Air Force were killed Friday when their plane crashed five miles south of this northern Ontario mining town 18 miles east of Kirkland Lake, Ont.

The dead, with regimental numbers and ranks of Lt. Col. Harry McDonald, R-96768, and Sgt. Gunhild McDonald (wife) 119 RCAF, were killed.

AC W. J. N. Slade, R-96768, was killed. Slade (wife) 205 RCAF, was killed.

St. James, Man.

The machine in which McDonald and Slade crashed left Winnipeg during the morning for Camp Barren, Ont., accompanied by another RCAF plane. The plane was flying low over the water when it crashed. The other aircraft landed and stayed at Kapuskasing, but McDonald and Slade continued east after the crash. They were not heard from again until the wreckage of their machine was found here.

Sgt. McDonald was piloting the plane. There were no other occupants.

## CANADA WAR EFFORTS TOLD N.Y. AUDIENCE

Navy Minister Reaffirms Dominion's Pledge Support Britain To End

NEW YORK, Oct. 26.—(CP)—Former Canadians—many of them veterans of the last war—heard in a gathering of about 1,000 people Friday, a detailed, factual account of the efforts of the Dominion of Canada in the struggle against Hitlerism.

James Macdonald, navy minister in the Ottawa government, reported at the Canadian club of New York to these Canadians who for business or professional reasons now make their living in the New York district.

Afterwards in the lobbies there were heard expressions of indignation that he had not realized just how popular his native country is in this city.

There was no attempt to hide tears that glistened in many eyes as the navy minister concluded an hour-long address with an affirmation of Canada's determination to support the British people forever and to the end, and with St. John's, the pantheistic declaration.

"Come the world against her, 'England yet shall stand'."

FUEL VENGEANCE

Mr. Macdonald and the Empire's allies will take full vengeance for the terrible attack on the people of Britain whose lives and conduct he said had never been surpassed.

And he told Hitler when these New Zealanders and Australians and Britons, and Canadians take the air to avenge the bombing of London and other British towns, he said when he outlined the ramifications of the Empire Air Training Plan, 5,000 trained men every month.

He expressed conviction that the "Germany whippersnapper" will be whipped in a manner she will remember for centuries.

Mr. Macdonald devoted the greater part of his address to facts and figures of the Dominion's war effort.

ARMED FORCES

Starting with the army, he said that whereas when war broke out, the Canadian army had 4,000 men available for active service, now he has 170,000 men in the C.A.S.F. alone and another 110,000 in the militia, and 30,000 every year are being trained.

In the air, the Royal Canadian air force had 2,500 men when the war broke out, now it has 20,000. At the end of this year will be 48 training flights in action.

In the navy, the 1,774 officers and men of peace time have grown to 12,000 now and will reach 23,000 in another year. By building and purchase, the fleet has grown from 15 vessels to 140 in 13 months and 100 more will be added in the next 13 months.

The Canadian navy played its part with the Royal Navy in destroying 2,000,000 tons of cargo in more than 3,000 ships with a surprisingly small loss, he said, while the Canadian destroyer in the Battle of the Atlantic had earned "the highest praise possible—the commendation of officers of the Royal navy."

TWO CITIZENS  
CAPTURE NAZI  
CAMP ESCAPEE

TORONTO, Oct. 26.—(CP)—An 18-hour manhunt for Carl Rabe, German U-boat warrent officer, yesterday, ended last night when he was captured by two citizens at suburban Long Branch after he had put ashore in a row-boat.

A substantial plan to cross Lake Ontario in the rowboat, which he found on a beach west of the city, was told by the German who appeared to be in good spirits when taken to the Long Branch police station.

He was spotted by George Speer, Long Branch resident, who noted the U-boat warrent officer's outfit of a boat. He called a passing motorist, James Kerr, and the two grabbed the man.

The prisoner offered no resistance and readily identified his identity in perfect English.

MUSSOLINI IS  
DRAFTED INTO  
AMERICAN ARMY

NEW YORK, Oct. 26.—(UP)—Draft board members at Brooklyn Public school III shuffled the registration cards today and drew that which will be listed as "No. 1" in the army.

It was made out in the name of Mussolini as a Joseph Mussolini who said all his relatives lived in Brooklyn.

## Another Battle Of Oran Seen If French Join Axis

British Mediterranean Fleet Will Trap Warships At Toulon To Prevent Use By Nazis and Italians

LONDON, Oct. 26.—(CP)—The spectacle of another "Battle of Oran," with the British Mediterranean fleet swooping down on Toulon to trap French naval units there before they could put to sea, was envisioned today by informed quarters as France agree to co-operate with the Axis powers against Britain.

Strategists also predicted that units of the British navy would attempt to take over French-held areas in the Indian and Pacific oceans, while Martinique and other French possessions in the western hemisphere would be left to Pan-American attention.

There was no doubt in British minds that Hitler's principal purpose in his conferences with Marshal Pétain, aged leader of the Vichy regime, was to get his hands on the French fleet, which even after the battering the British gave it at July 3 at Oran, Algeria, would be a valuable addition to Axis naval forces.

The government, of course, kept official comment on Britain's probable action should the French ships go to Hitler, but experts cited a feeling, which is general in informed quarters, that the powerful Royal Navy would most likely try to bottle up the French fleet at Toulon.

Such an attempt probably would produce a much better fight than the 20-minute engagement at Oran, the strategists admitted, because of added opposition which must be expected from the German air force and the Italian navy.

But in the British Mediterranean fleet is "quite capable of handling the situation," the experts said, recalling the Prime Minister Churchill's announcement in Commons several weeks ago that great reinforcement was in progress.

Strategists differed on what would happen to French-manhandled Syria. In view of its proximity to France and Spain, Turkey and Russia could not become effective unless the U.S. government released at least 80,000 tons of the Rumanian tank trucks in America.

Japanese complications and because of the large landing force which would be required.

## Proper Co-ordination Of Railway, Highway Transport Is Urged

HALIFAX, Oct. 25.—Regulation of road transport service and rates under uniform legislation enacted jointly by provincial and federal authority in the National Interest was suggested by the Hon. Bernard Allen, minister of the research and development department, Canadian National Railways, during the course of an address delivered to the Commercial club.

Mr. Allen discussed "The Conflict of Railway and Highway Transport in Canada" and stressed the vital importance of co-ordination in obtaining proper co-ordination of these two types of land transport. Mr. Allen began by insisting that the conflict between railway and highway transportation is not a "fight" for traffic but an important economic problem which is of direct concern to all citizens. Each type of transport has a definite field of activity, he said, and failure to function in their proper field of activity will perpetuate an economic friction and unnecessary economic loss.

**IMPORTANCE OF RAILWAYS**  
The importance of railways in time of national emergency was clearly proven during the first year of the war when they moved freight and passengers in such volume as could not have been handled by highway transport. The work now being done by the railways is possible because of their peace time preparation such as betterments in equipment, improvement in equipment and increasing speed of freight trains which carry heavier loads with less coal consumption.

The Canadian National railway during the first year of the present war was called on to move an average of 30 per cent and 12 per cent in freight and passenger traffic respectively. The railways have been thrown even larger burdens being thrown on as this country has its full stride in the production of war materials.

Mr. Allen has the cheapest rail transport in the world, Mr. Allen declared, the average rate being one cent for moving one ton one mile.

He added that commodities which have rates well below the average include coal, lumber, pulpwood, cement and wheat, in fact about 20 per cent of the Canadian National railway's traffic moves at a rate of less than one cent for one ton one mile.

While railways must provide and maintain their own right of way and pay taxes in addition, their highway counterparts, according to Mr. Allen, do not even pay a share for the use of the highways.

The highway operator is not a common carrier and picks and chooses traffic while the railways are required by law to move all traffic offered whether or not it is profitable. The trucker charges a rate to the immediate situation while the railways are bound by their published rates.

The low revenue to the Canadian National Railway from 1939 to 1940 in the volume moved by truck, said Mr. Allen, who added "The trucks in 1939 moved about 44 per cent of the traffic and got 20 per cent of the total land transport revenue. This means that the railways performed 84 per cent of the work and got only 40 per cent of the revenue."

**U.S. CONDITION IDENTICAL**  
The traffic conditions in the United States is identical with that in Canada. Their trucks provided about five per cent of the nation's land transport movement and received about 20 per cent of the total revenue. The U.S. condition is identical with that in Canada in the proportion to the volume of traffic moved or work performed by the trucks.

Mr. Allen combated the theory that the trucking industry in the United States is identical with that in Canada. Their trucks provided about five per cent of the nation's land transport movement and received about 20 per cent of the total revenue. The U.S. condition is identical with that in Canada in the proportion to the volume of traffic moved or work performed by the trucks.

Mr. Allen asserted "If trucks had moved all the rail borne freight traffic in 1939, the railways would have had to pay one and one-half billion dollars for the service. Whereas they paid, for the railways three hundred million for the move. The trucks would consume about five for the highway to one for the rail."

Mr. Allen previously spoke to the Engineering Institute of Halifax on the subject of "The Road and Rail Transport."

**OFFICER MAKES  
THREE ESCAPES  
FROM NAZI FOE**

LONDON, Oct. 25.—(CP)—Harrowing adventures of a House officer who escaped capture three times during the Battle of France and finally reached England and safety can now be told.

Captured in Belgium, he was imprisoned in barracks for a week, escaped first while being marched from Brussels to St. Trond with other officers.

A peasant gave him refuge in his cottage and provided him with a "Sunday suit" to enable him to escape. He headed on foot for France. The war was ended again at Elzenheim. The House officer's escape was in a few minutes.

Further on he marched boldly through a German military headquarters, got safely through. Then at Grand Port he was arrested, identified as a British officer and imprisoned again. Third time he escaped, this time from St. Riquier, and headed for the French coast.

There he managed to get a small motor car and after starting down the channel was picked up by a British vessel patrolling for stray aircraft along the coast.

**New President**  
SASSATON, Oct. 25.—(CP)—Claude H. J. Burrows, K.C., of Regina, was elected president of the Saskatchewan Conservative Association at the biennial convention here today. Mr. Burrows succeeds H. E. Keeney, K.C., of Melfort, who held office for four years.

## Musically Speaking

HITTING unknown to many music-lovers in Edmonton, Laurence Hatfield left an indelible imprint in the minds and memories of all who heard him on Friday of last week, when his recital of the celebrated Berlioz concert for the season. An avowed audience listener to the young violinist, who played with a voice of exceptionally good quality and deep appeal and a recital holds an important place in the annals of Edmonton's musical life.

**BEAKING** an old tradition, the University Musical Club, which has been meeting in Athabasca Lounge on Sunday afternoons, held its annual concert on Sunday evening, October 27, at nine o'clock at the radio studio.

His first appearance in the concert was a high point when he brought the Beethoven Violin Concerto to a successful conclusion. He was followed by the first performance of his "Divertimento" for string orchestra, which will be played by the University of Alberta.

He will be playing a work of Ditta Pastry-Barthel, which will be the second piece. He will then play a work of the University of Alberta.

He will be playing a work of the University of Alberta. He will be playing a work of the University of Alberta.

## Rehearsals Proceeding On "Carmen" Production By Civic Opera Society

Interpolated in "Carmen," the opera for which he is most famous, are fragments from most of the earlier works of Bizet, the French musical composer. The opera "Carmen" will be presented by the Edmonton Civic Opera Company in the Empire theatre on Thursday, Friday and Saturday, November 21, 22 and 23, and rehearsals are now in full swing for this production.

A student at the Paris Conservatoire under Halévy, he was awarded the Grand Prix de Rome for a cantata called "Les Châliers." His second opera "La Fille du Peuple" was produced at the Opéra in Paris, where he achieved a reputation as a pianist and accompanist.

His first opera "Les Pecheurs de Perle" was produced at the Theatre Lyrique in Paris, 1875, but did not make a very long run. It contained the best of his early work and some of his dances are now usually introduced in the fourth act of "Carmen."

On June 2, 1885, Bizet married a daughter of his old master, Halévy. His first wife was the daughter of the composer, the favorite and characteristic Bizetian dance has been interpolated into the fourth act of "Carmen." Five years later, he won a great popular success with the official music which he wrote in Alphonse Daudet's drama "L'Arlesien."

Quebec Province  
Claims Large Sum  
From Late Official

QUEBEC, Oct. 25.—(CP)—The Quebec government today filed a petition in Quebec court, claiming \$24,773 from Charles Lamoignon, former Quebec minister of finance, who was recently charged with the violation of the Criminal Code.

The move came as a counter-claim to a petition by Lamoignon claiming more than \$100,000 from the government in pension money which he claimed had been unpaid since March, 1932. Lamoignon, assistant attorney-general during the regime of former premier Taschereau, claimed a pension of \$350 a month.

He is accused of having been a member of the 32nd anniversary of the French composer's birth in being sponsored by a group of leading musicians. The committee in charge consisted of Mrs. Samuel L. M. Barlow, Dr. Edgar Danneberg, and other professional and amateur, and to \$100 male clubs and similar organizations to plan their program. Jean Sibelius was born on December 7, 1865. Now in retirement, he is regarded as one of the world's greatest living composers.

Following the evening service in Edmonton, Sunday church services, October 25, G. Alex Kavan, F.T.C.I., organist and choir-master, will present an organ recital in aid of destitute European musicians. His program will include "March of the Priests" by Mendelssohn; "Angelic Voices" by E. Balzer; "Fantasia" on hymn tune "Em-

**ATHENS, Greece, Oct. 25.—(AP)—**The Greek government was expected Friday night to be planning to build military bases in the Mediterranean islands of Crete, Naous and Andros. Hagers, repair shops and fields are being established on each, it was understood.

**German**  
BERLIN, Oct. 25.—(AP)—The test of the German high command commander. Light combat planes of Field Marshal Goering's command (today) attacked the British coast and important objectives in southeast England. Numerous hits were scored on railroad tracks, factories of supply districts east of Bournemouth and other sections of England.

Two convoys were attacked and dispersed by planes off the east coast of England. One merchant ship was sunk, and its total loss appears certain. "Another convoy, sailing close to the English coast under cover of darkness, approached the Straits and was effectively shelled by German aircraft. The convoy was also dispersed. A number of ships sought refuge in Dover harbor and again were caught by our heavy batteries. There was an abandonment of these claims by British sources."

At night, heavy combat units, in rolling attacks, effectively raided London, Birmingham and port facilities on the English coast. As well as airports in central England. Mining of British ports continued.

Bombing plans last night entered the first week of the campaign. Bombs at several places, nearly all of which fell on open fields. Only one aircraft was lost.

The R.A.F.'s targets included the Luftwaffe, its installations and airbases. Our fighters downed 17 enemy bombers in the course of yesterday's air fight. Lost. Meisters downed one of our fighters. Seven of our own planes were missing.

Fourteen German fighters were destroyed over Britain yesterday. The R.A.F. lost six planes, but seven of the pilots were saved.

**DANUBE RIVER SHIP CONTROL BE DISCUSSED**  
MOSCOW, Oct. 25.—(AP)—A Soviet communiqué Friday night said the Danube river control was being discussed by the Soviet government. It was reported that the Soviet government was discussing the Danube river control with the British government. The Soviet government was discussing the Danube river control with the British government.

**Italian**  
ROME, Oct. 25.—(AP)—Saturday's Italian high command communiqué. "To North Africa, our troops have bombed railroad works at Matruh, causing damage and fear. Enemy warships during the night bombarded our base of Sidi Barrani without causing any damage. The enemy air force bombed Tobruk (Libya) without causing any damage. An enemy Blenheim (bomber) plane was shot down by our pursuit planes, and two others probably were shot down—including one hit by naval anti-aircraft fire. (There are no information of these claims from British sources.)"

"In East Africa, one of our air formations bombed an enemy air field at Matruh on the Kenya coast. The enemy air force attacked Gorta field by Italian air force, wounding two native Desert troops. Asah, where light damage was caused, and Egyptian military consequences."

"The commander of the destroyer Nulio, Lt. Cmdr. Colangelo Bignati, sank with his ship after having been hit by the enemy's air force. This was the destroyer driven into the sea and then torpedoed by H.M.S. Kimberley."

A contagious disease is now communicated by germs carried in air or water, and which can be spread without contact with the patient.

## Looking Them Over

By Jack Kelly

Fritzonian Touch

Bid For Honors

Exhibition Game

IT SEEMS that the Fritzonian touch has done things for the Golden Bears of the University of Alberta. Even though the Students have lost the football E.C. last night by 42-0 for the most decisive victory of the current City Football League. It is a bit better about sleeping up with a vast array and snubbing the present Varsity team the greatest U. of A. has yet produced.

Some pretty fair teams were the green and gold back in 1939 when Wally Stirling was coaching and before that the boys were mighty tough in the days of Jack McAllister, Big Sir Langford and some of the best players that the current crop of students haven't even heard about.

The test of football ability is opposition and so far the Golden Bears haven't had what can be rated as a major test. It is true that seven of last season's Eskimos were to reinforce the E.A.C. but football is more than just pulling together a bunch of players. They have to drill together for weeks to get their timing co-ordinated and their plays organized.

While the co-Eds playing last night seemed to be in pretty fair physical shape, it was obvious that they and the E.A.C. regulars were not sure just what they were going to do and how.

It was definitely the alibi that the Students have met this season and the fact that they ruled up their biggest blunder in it is ample evidence that they are improving by leaps and bounds under the coaching of Bob Fritz. There is no question but what they played brilliantly and sensationally last night.

## The Bears Have Dreams

AMONG other things, one of which hits you every few hours these days, is the fact that after being almost dead for some years, football at the University of Alberta suddenly revive now when the autumn of '40 was having intercollegiate sports.

However, the Golden Bears and their famous coach are trying with an idea that would write one of the most sensational plays in U. of A. football history if it carried out. The idea is to have a football game between the two teams at the end of the season, the one that is the best of the two teams to win the championship.

The Bears and their coach have started wondering if perhaps they mightn't make a bid eventually for dominion senior football honors, challenging first the Western Conference.

Nothing along this line is likely to be attempted this fall, but Mike Miller is pretty regular with the Bears in the spring and by next fall the Bears should be vastly superior to what they are at present. Unless war conditions necessitate the cancellation of football in 1941, the students may then be ready to give serious thought to the dominion championship try.

The one great stumbling block to such an effort is the alibi that has been Canada has of getting around to the dominion final about the same time as the Saskatchewan arrives in town. How can a football team be kept on edge here until December when all practice pigskins are packed away early in November?

A suggestion is being floated around these days that an attempt be made to arrange an exhibition game between the Regina Roughriders of the Western Conference and the Golden Bears for the end of next week period. That would be the big test that the Green and Gold need this fall to determine just what their weaknesses and strengths really are.

All of the foregoing just serves to remind you of what a lot of fun we could be having if Germany had a little more sense.

## Hawks Look Like Best Squad Chicago Has Had

HIBBING, Minn., Oct. 26.—(AP)—Manager Paul Thompson is forced to weigh his words carefully these days or his enthusiasm about the Chicago Hawks will carry him away.

Thompson, beginning his second year as manager, says the Hawks are "the best team I have ever seen." He is also confident that the Hawks will carry him away.

## Golden Bears Wallop Reinforced E.A.C. By 42-0

A Nation Watches These Two Today

War and the presidential election battle are forgotten today in the United States as millions of football enthusiasts wait to see what will happen when the two greatest slugs of the current college season clash. On the left is one of these, Frank Reagan of Pennsylvania, with Gene Davis knocking for him. At the right is Tom Harmon, the Michigan flyer.

## Millions Put Two Boys On Spot In U.S. Weekend Football Feature

DETROIT, Oct. 26.—(BUP)—When I had tea with Millard Fillmore in 1856 and discussed the platform of the Know-Nothing party, I never dreamed I would live to see the day when two football players would choose the presidential candidates of the two major political parties out of the public mind.

NEW YORK, Oct. 26.—(AP)—The outstanding football tussle in the United States this week-end will take place today at Ann Arbor, Mich., when the great Tommy Harmon leads all-conquering Michigan against undefeated University of Pennsylvania.

Probably neither Mr. Roosevelt nor Mr. Willkie would admit it, but while Michigan and Pennsylvania get through with their game, here this afternoon the only two men attracting any serious attention are Tommy Harmon and Frank Reagan.

## ARMY HOCKEY LOOP OVERSEAS NOT EXPECTED

By BRIAN A. TORIN

LONDON, Oct. 26.—(BUP)—The prospects for the formation of a hockey league among Canadian troops this winter do not appear to be very bright, a survey of London and district rinks disclosed Friday.

Rinks at Windsor, Hartlepool, Streatham, Earl's Court, Richmond and Putney are in the danger zone and German night raids and blackouts will keep citizens from attending the games.

It was added that there would be some difficulty in transporting army teams from nearby towns and officers were unwilling to bring large numbers of troops into danger zones to attend the games.

Although some of London's rinks have been requisitioned for use by refugees, officials have offered hockey rinks to the soldiers but acceptance was not likely, officials said.

The British Army's Division is on active service and the Service and army sports teams might draw up could not be followed.

However, two artillery regiments have good teams and equipment and are eager to play. The artillery has managed to get together what it considers a good team, but the lack of ice has prevented the team from playing.

The unbroken R.C.A.F. with a great increase in personnel, have been given permission to organize a team.

"We don't play hockey," said the "champs."

English league teams are not likely to play this year through severe weather conditions, officials said.

## Don Johnston Makes Three Touchdown Runs

Last night at Clarke Stadium, the Golden Bears of the University of Alberta ran against the toughest opposition they have met this season and scored their biggest victory, 42-0 over the Edmonton Athletic Club reinforced by seven members of last season's Eskimos of the Western Conference.

Officially the game was a regular fixture of the City Junior Football League, but actually it was an effort to find out just how tough the Bears of Coach Bob Fritz are.

The only answer the test gave was that the Students are far too tough for anything around these parts. They were met fairly head-on all night with the exception of a few minutes in the third quarter when Paul Kirk and Percy Hardy ripped off a series of spectacular plunges that moved the E.A.C. from their own 32 yard line up to the Bears' seven-yard line.

At this time the Bears were wrecked the E.A.C. offensive and let the green and gold break away again.

SEVEN CONSECUTIVE TOUCHDOWNS. Varsity scored seven touchdowns, three by Johnston and one each by Freese, Grisdale, McCannell and McCallum.

McCannell converted all seven touchdowns, six by place-kicks and by galloping around the field with the ball.

Freese kicked and by galloping around the field with the ball.

Freese kicked and by galloping around the field with the ball.

Freese kicked and by galloping around the field with the ball.

He was a member of the Law Society of the United States. He was a member of the Law Society of the United States. He was a member of the Law Society of the United States.

## SAFETY WEEK CAMPAIGN IS PLANNED HERE

Traffic Hazards Will Be Stressed During Edmonton Drive

With the likelihood that early winter street conditions will be at any moment being greatly increased hazard to city motorists, the Edmonton safety council has designated next week as Safety Week in Edmonton.

Through the cooperation of the city police and the city council, the city police station will be the headquarters of the campaign.

In addition to garage and workshop inspections, which are being given by the city police, the city council will also be giving out leaflets and pamphlets to the motorists. The city council will also be giving out leaflets and pamphlets to the motorists.

L. Y. Cairns, C. H. J. Roche and A. E. O'Brien are the three officers of the city council active in the campaign.

Through The Mill

Observing that army life, with the emphasis on discipline, is gradually being taken over by a young man with a yen to roam around the city, the city council has decided to take a hard line on the matter. The city council has decided to take a hard line on the matter.

A woman from the country, pleading ignorance, was charged with the theft of a pair of stockings from a department store. The woman was charged with the theft of a pair of stockings from a department store.

The man who appeared Friday charged with perjury because of swearing he had not driven a car in 1910 without a driver's license, pleaded guilty to the offence and was sentenced to 15 months in jail.

A WORD ABOUT HUMAN EYES

By Jackson Bros., Optometrists

How many times have you heard people say, "Why do many people wear glasses today? The real source of wonder is that so many people wear glasses today. The real source of wonder is that so many people wear glasses today.

Just think how much the eyes are asked to do today, clear print in newspapers and magazines, read, columns of figures to scan, flashing electric lights to endure, movies to watch. It really amazes that they continue to function as well as they do. So it is not surprising that glasses nowadays are not merely worn to see better, but to relieve the eyes from strain that comes from constant use.

Here's another aspect about glasses. They can help to preserve the youthful appearance. Glasses

## Retiring Engineer On Final Run

ENGINEER EUGEN MAINE OF THE C.N.R. stepped from his cab for the last time at the depot at 6:40 p.m. Friday as he brought the Calgary-Edmonton train to a halt on the city street.

The veteran engineer, who was born in 1864, has been with the C.N.R. for 35 years. He has been with the C.N.R. for 35 years. He has been with the C.N.R. for 35 years.

## AIR TRAVEL AT 500 MILES HR. IS PREDICTION

New High Speed Equipment Trans-Canada Comm. Says Official

Air-minded Canadian travellers will in the near future hustle through the atmosphere at speeds of 500 to 600 miles per hour, it was predicted by W. A. Strath, director of the Trans-Canada Air Lines, Winnipeg, in an address to the Edmonton branch of the Engineering Institute of Canada at the Macdonald Hotel Friday.

The new high speeds will be attained through equipment that is already being operated in the United States and which will give rise to new general commercial use within the next two or three years, Strath predicted.

Presented cabins and propellers of high efficiency that require the least amount of fuel and the least amount of maintenance, Strath predicted.

Strath predicted that the new high speeds will be attained through equipment that is already being operated in the United States and which will give rise to new general commercial use within the next two or three years, Strath predicted.

**"O Loss of Sight of Thee I Most Complain"**

Loss of sight, eyestrain and similar disorders are undoubtedly due to neglect.

Careful, thorough eye examination at regular intervals executed by well-trained and skilled specialists using modern scientific instruments is your best safeguard and the only means by which your most valuable visual efficiency can be preserved.

Optometry is the profession, recognized and controlled by statutory laws in every Province of the Dominion, whose function it is to restore and preserve visual efficiency by the use of ophthalmic lenses and orthoptic treatments.

Develop the habit of having your eyes examined at least every two years; neglect of this safeguard may be dangerous.

## Young Air Hero Back To The Wars

Sergeant John Hannan, the 15-year-old British boy who was awarded the Victoria Cross for gallantry in extinguishing a fire on his bombing plane instead of abandoning the ship via parachute, is back behind his gun. He is shown at his post in the gun cockpit of his bomber, ready for number one at the Nazi airman.

## Involved In Admiralty Shakeup

Air Geoffrey Blaker, Sir Charles Forbes, Sir Henry Harwood. A serious offensive campaign by the Royal Navy was launched in the latest admiralty reshuffle. Sir Henry Harwood, hero of the Battle of the River Plate, was made first commander of the aircraft and assistant chief of staff to succeed Vice-Admiral Sir Geoffrey Blaker.

Russia's southern border runs 7,000 miles, from Odessa to Vladivostok, the most important and dangerous neighbor to all the major powers except the United States.

At Russia's border are five international headaches: **1. The Balkans.** Russia looks out to the sea. Geography makes the Dardanelles her only southwest window on the world. Russian policy, under the czar as under Stalin, has been to try to obtain possession of this vital exit. And thrust at Turkey by another power would be a potential threat at the Turkish-Russian gate. The two warring members of the Berlin-Rome axis have indicated their winter plans call for a drive east and south. Turkey must be won in these plans. **2. Persia-Iraq oil.** This is Britain's headache. Britain has important oil fields in this area. If Russia goes while big anti-British, these rich oil fields are too close for comfort. **3. India.** Russia is just a skip and a jump through Afghanistan from Northern India. The Indian hill tribes have long been a big trouble to Britain. With open Russian support, they might precipitate a changing problem through all India. **4. Millions China.** Japan, bent on building an empire and got this headache. The Chinese have held up in Chungking, have so far refused Japan's "new order in Asia." **5. Vladivostok.** This eastern Russian outpost keeps Japanese strategists awake nights. It has been called a dagger aimed at the heart of Japan. It is slightly over two hours by bomber from Japan's leading industrial centers. It is heavily fortified, an air and submarine base. It dominates the sea where Japan fears to venture.

What of Russia? Nobody knows. A line-up among nations for two decades, Russia has suddenly become the overboard of the powers, courted and wooed for her favor. Russia is being over as a sophomore at her first dance.

The Russo-German pact of August 1939, with Nazi troops freed from the threat of Russia on her back, Germany could engage the Allies. Russia made the war possible for Germany, and picked up Latvia, Lithuania, and Bessarabia as her fee. Britain never stopped courting Russia. The axis seeks her favor. Even Japan is bowing and scraping for Russian friendship. Through it all Joe Stalin has gone unscathed. None of the powers trusts Russia. All fear the moves she could make. Russia is a position that permits driving a hard bargain.

## CAUSE—R.A.F. Heeds Bomb-Torn London's Plea Give Berlin Same Medicine—EFFECT

Just after dark on Oct. 24, the city of London was hit by a series of German bombs. The city was hit by a series of German bombs. The city was hit by a series of German bombs.

British military leaders aim to counteract the R.A.F. by striking at German cities. The R.A.F. is striking at German cities. The R.A.F. is striking at German cities.

## "Hello, Mummy . . . We're Well And Happy . . . In America"

"New York is lovely, we've been on points and parties. 'Hello' to Dad. I'm glad to hear you're all well. Little snapshots of me and my friends. We're all well and happy. We're all well and happy. We're all well and happy."

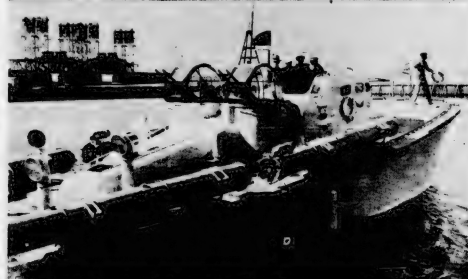

## Fight For British

Most Gracie Wainwright, who is fighting for the British. She is fighting for the British. She is fighting for the British.

## Cold Hands

Apparently, having the tip of a cold, and having a cold, is a cold. Apparently, having the tip of a cold, and having a cold, is a cold.

## Small But Deadly Are U.S. Torpedo Boats

U.S. Secretary of the Navy Frank Knox, extreme left in the picture, is pictured as he was taken for a ride on one of the Navy's new torpedo boats. These small boats, with a speed of 40 miles per hour, are capable of sinking the largest ships. A movement is on foot in the United States to have several such torpedo boats turned over to Britain.

## For America's Greatest Lottery

Implemented in the World War Lottery of 1917 and its sequel, the current draft, the U.S. has a great lottery. The U.S. has a great lottery. The U.S. has a great lottery.

## This Boy's Getting Used To It!

To be humbled out of two homes in quick succession is disturbing for any boy. But Edward Albert Wood, Earl of London, finds it no more. He is getting used to it. He is getting used to it. He is getting used to it.

# \$12,258 NOW CONTRIBUTED TO RED CROSS

Many Donations Received From Outside Points In Campaign

Bringing total contributions to the Red Cross campaign in Northern Alberta to \$12,258.91, many donations have been received in the past few days. It was reported Saturday by officials of the Red Cross here.

Among the larger donations received are \$400 from the Macdonalds and \$300 from the Macdonalds and \$300 from the Macdonalds.

Terrier To Aid Sniffire Fund

Sniffire fund, which is being raised by the Terrier Club, has received a donation of \$100 from the Macdonalds and \$300 from the Macdonalds.

# FEDERATION OF CHURCHES NEED CLERIC STATES

Constating that the federation of churches in Canada is being made more and more necessary because of the various nature of the times, as expressed by Rev. William Barclay, M.A., B.D., of Hamilton, moderator of the general assembly of the Presbyterian church in Canada, Friday.

Mr. Barclay arrived in the city Friday, the member of an official church conference in Alberta. He was speaking at a luncheon at the Hotel Macdonald.

Continued from Page Eleven

and also has a prediction that the Boeing Aircraft Corp. is expected to develop a new type of aircraft of the type of aircraft.

Some of the other companies are expected to develop a new type of aircraft of the type of aircraft.

# First Sod Turned For Legion Services Hut At Troops' Barracks

First sod for the new hut being erected by the Canadian Legion War Services at the northwest corner of Hut City at the Prince of Wales Armories was turned this week. The frame building, finished with plaster on the inside, will cost in the neighborhood of \$18,000, including fixtures, according to Ray Goff, supervisor for M. D. 13, in an interview with reporters Wednesday.

The interior of the hut will consist of a main hall, with a stairway and a study room. Like similar huts at points across the Dominion it will be equipped with a branch of the public library, with Hugh C. Goulet, city librarian, supervising.

I DONT CARE - I JUST  
COULDN'T LET HER GO -  
WE...WE HAD A SON,  
BERT--SHE SOMEHOW  
SEEMS LIKE A DAUGHTER  
TO ME -- I CANT LOSE  
HER, TOO -

FLATTERER - OH, WELL -  
I WASN'T ALWAYS A  
WAITRESS-- I WORKED FOR  
A WHILE IN A DRESS SHOP  
ANOTHER GLITTERING FACE  
OF MY PAST, EH, SAM?

OH, GEE--  
YOU'RE RIGHT  
I NEVER  
THOUGHT O'  
ALL THAT--

WE MIGHT? I  
HAVE? DON'T KID  
ME - SAM, YOU'RE  
ABOUT TH' SMARTEST  
GUY I KNOW -  
AND TH' NICEST -

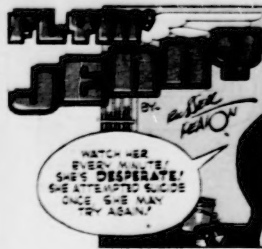

1

HA! HA! THAT'S THE  
SAFETY FEATURE-THERE  
ISN'T ANY HOT WATER-
